

Junru Li

📍 Beijing, China ✉ jr-li24@mails.tsinghua.edu.cn 🔗 <https://junruli2000.github.io/>

Education

Institute for Interdisciplinary Information Sciences, Tsinghua University	2024.8 – present
<i>Ph.D Student in Computer Science and Technology</i>	GPA:3.93/4
<i>advisor: Yifan Song</i>	
Institute of Mathematical Sciences (IMS), ShanghaiTech University	2020.9 – 2024.7
<i>Bachelor of Science in Mathematics and Applied Mathematics</i>	GPA:3.80/4

Research Interest

My research interest is theoretical cryptography, with a special focus on secure multi-party computation.

Publications

Authors are listed in **Alphabetical Order** (unless stated otherwise).

1. *Achieving Guaranteed Output Delivery MPC with Constant Rounds and Linear Communication in Minicrypt*
Junru Li, Yifan Song
CRYPTO 2026
2. *Breaking the $\Omega(|C|\kappa)$ Barrier on Garbled Circuit Size in the Random Oracle Model*
Junru Li, Yifan Song
CRYPTO 2026
3. *Faster Gradient Methods for Highly-Smooth Stochastic Bilevel Optimization*
Lesi Chen, **Junru Li**, El Mahdi Chayti, Jingzhao Zhang (*contribution order*)
ICLR 2026
4. *Honest Majority Constant-Round MPC with Linear Communication from One-Way Functions*
Junru Li, Yifan Song
TCC 2025
5. *Towards Building Scalable Constant-Round MPC from Minimal Assumptions via Round Collapsing*
Vipul Goyal, **Junru Li**, Rafail Ostrovsky, Yifan Song
CRYPTO 2025
6. *Constant-Round Asynchronous MPC with Optimal Resilience and Linear Communication*
Junru Li, Yifan Song
CRYPTO 2025
7. *Efficient Information-Theoretic Distributed Point Function with General Output Groups*
Junru Li, Pengzhen Ke, Liang Feng Zhang (*contribution order*)
Designs, Codes, and Cryptography
8. *Dishonest Majority Constant-Round MPC with Linear Communication from DDH*
Vipul Goyal, **Junru Li**, Ankit Kumar Misra, Rafail Ostrovsky, Yifan Song, Chenkai Weng
ASIACRYPT 2024

9. *Linear-Communication Asynchronous Complete Secret Sharing with Optimal Resilience*

Xiaoyu Ji, **Junru Li**, Yifan Song

CRYPTO 2024

Teaching

- Teaching Assistant to Prof. Yifan Song in *Secure Multiparty Computation: Theory and Application*, Spring 2026, Tsinghua University
- Teaching Assistant to Prof. Junwu Tu in MATH 1233 *Introduction to Topology*, Fall 2023, ShanghaiTech University
- Teaching Assistant to Prof. Zheng Zhang in MATH 1224 *Abstract Algebra*, Spring 2023, ShanghaiTech University

Experiences

- External Reviewer: ASIACRYPT 2024, ASIACRYPT 2025, TCC 2025, PODC 2026, FOCS 2026, TCC 2026
- Online Research Intern, Peking University, advised by Prof. Tianren Liu (2023.4 - 2023.6)
- Research Intern, ShanghaiTech University, advised by Prof. Liang Feng Zhang (2022.7 - 2023.7)

Talks

- Honest Majority Constant-Round MPC with Linear Communication from One-Way Functions, at *TCC 2025 (2025.12)*
- Constant-Round Asynchronous MPC with Optimal Resilience and Linear Communication, at *CRYPTO 2025 (2025.8)*
- Towards Building Scalable Constant-Round MPC from Minimal Assumptions via Round Collapsing, at *Shanghai Jiao Tong University (2025.7)*

Awards

- | | |
|---|------|
| ◦ Lingjun Pioneer Scholarship | 2025 |
| ◦ Huawei Academic Research Scholarship | 2025 |
| ◦ Presidential Scholarship, ShanghaiTech University | 2024 |
| ◦ Outstanding Graduate of ShanghaiTech University | 2023 |
| ◦ Shanghai Scholarship | 2022 |
| ◦ Outstanding Student of ShanghaiTech University | 2021 |
| ◦ Merit Student of ShanghaiTech University | |
